WHA AAA AAA

Hello, everyone.
Shedge here.

Now then, there is something I want to clarify about this chapter and the "electrical tranny".

First off, I do not know what Yukina meant by that. At all. Maybe if it was after Lamia came out, it would make sense. So, you can make heads or tails with that. I personally think she was referring to its tail.

The "Hungry" thing is a pun, as the Machina MK-II looks like a Rice Cooker. Yeah...

I want to clarify one more thing. In no way do I mean to offend anyone with the term "Tranny". I used the original slang term how it is in Japan.

Plus, I am Transgender myself, so I don't really care about stupid insults anyway... Any way, I am sorry if I offend any one who is Gay, Lesbian, Bisexual or Transgender/Transsexual in any way.

Thank you, ShedgeScans
